ORIGINALITY

There have been many questions and concerns on the topic of student “originality” in art.

Many students do not have personal knowledge of the subjects required for this competition. Therefore, published and printed material may be one of the tools the student uses to research the idea for his or her art. Please be careful how this tool is used.

For example: When a student researches a paper for History or English, published material is used to compile his facts or thoughts on the subject. It is very unlikely that a student will receive a grade if he copies the material. The same holds true for art. **PUBLISHED MATERIAL MAY NOT BE COPIED, IN WHOLE OR IN PART.**

The Student may use as a source reference a non-published photograph he or she has received permission from the photographer to use, and the photographer must sign the “Photography Release” form. If the student who took the photo is a minor, the parent or legal guardian must sign the release. When any such non-published photo is used for reference, a good quality copy of the photo must be included in the envelope. If a historical family photo is used, the student must be able to verify who took the photo. **THE ORIGINAL PHOTO(S) OR DIGITAL DISK MUST BE AVAILABLE FOR REVIEW UPON REQUEST.** The photo copy will NOT be returned.
