Once again, the DuPage County Fair Association is inviting all Resident High School Students to share their artistic talents. Since the start of this program in 2016, Friends of the DuPage County Fair have awarded over \$50,000 in college scholarships in the last three years. There is no cost for entry, students only need a willingness to compete against other students in the County and to share their talents. This is a wonderful opportunity for student artists, and their families, to help with the cost of continuing education. It is also a great opportunity for the Fair Association to highlight the many talented artists of DuPage County.

Please share this information with your Art Teachers, Clubs, and students. Information and applications can be found on our website: www.dupagecountyfair.org, or you are welcome to call our office 630-668-6636. Have a wonderful end of the school year!

Thanks,

Jim McGuire, Executive Manager
DuPage County Fair Association
